“ During my studies, I embarked on a transformative journey that significantly shaped my personal and professional growth. One memorable experience involved working in a diverse team to develop a proposal for a UK-based medical company, highlighting the benefits of expanding their operations into another country. This project taught me the importance of collaboration and cross-cultural communication, as we explored market opportunities and potential challenges. Balancing rigorous academic demands with extracurricular activities also presented its own challenges, but it instilled in me a strong sense of resilience and time management. These experiences have not only enriched my education but also inspired me to pursue a career where I can make a positive impact in the business world. ”

CAMACLANG Gian Sean L.
